

Letter of Understanding

It is with great pleasure to announce Jet Airways (India) Ltd. in conjunction with Epic Aviation Inc in Florida, USA, has formed an understanding with respect to the Jet Airways pilot's recruitment.

Jet Airways recognises the overall experience and training that pilots are able to receive at Epic Aviation Inc. and offers its support by guaranteeing a job interview for all students who successfully complete the Pilot Training program for Commercial Pilots License with Instrument and Multi Engine Rating and satisfy the criteria as set by the local authority, Director General of Civil Aviation (DGCA) and Jet Airways (India) Limited.

Epic Aviation Inc. applicants interviewing with Jet Airways for a Professional Pilot Position must meet the same standards for employment as other candidates of Jet Airways in passing all phases of the interview.

Applicants who have successfully completed the interview process will be offered employment based on Jet Airways' hiring needs as per the economic conditions existing at that time.

Jet Airways is very excited about this alliance and looks forward to a long term and mutually beneficial relationship with Epic Aviation Inc.
